Symphony Plastic Technologies plc

Local Authority Contract Win

Symphony Plastic Technologies Plc ("Symphony" or "the Group"), through its wholly owned subsidiary Symphony Plastics Ltd, has for the first time been awarded an important two year contract, with an option to extend to three years for the supply of refuse sacks to the Welsh Purchasing Consortium ("WPC").

The contract is for the supply of approximately 30 million non-degradable sacks to eight authorities throughout Wales with a value in excess of £900,000 over the term of the contract.

The bags are being used for various applications including the collection of household domestic waste, kerb side collection of dry recyclables and rubble collection.

Michael Laurier, Chief Executive of Symphony said:

"The WPC contract for Symphony's range of non-degradable recycled and high performance bags is further evidence of Symphonys' progress in delivering sales to the local authority sector, and again demonstrates the diversity of products and customers supplied by the Company."
