#### **Further information on the Symphony Environmental Technologies Group of companies:**

SYMPHONY ENVIRONMENTAL TECHNOLOGIES PLC considers itself a world leader in Controlled-life plastic technology and products - a system that works by a process called oxo-biodegradation. The technology is branded d<sub>2</sub>w<sup>®</sup> and appears as a droplet logo on many thousands of tonnes of plastic packaging and other plastic products.

Symphony has a diverse and growing customer-base and has established itself successfully as an international business. Products made with d<sub>2</sub>w plastic technology can now be found in more than 90 countries around the world and in many different product applications. Symphony is a member of the Oxo-biodegradable Plastics Association ([www.biodeg.org](http://www.biodeg.org)), the Society for the Chemical Industry (UK), and the American Standards Organisation (ASTM). Symphony is also a member of The US Save the Plastic Bag Coalition (<http://www.savetheplasticbag.com/>) and the British Brands Group. Symphony actively participates in the work of the British Standards Institute (BSI) and the European Standards Organisation (CEN).

Symphony also owns d<sub>2</sub>p which is an anti-microbial technology that is used in most type of plastic product applications to help protect those products against bacteria and fungi growth. Symphony is also developing innovative and cost-effective waste-to-value technology to convert plastics, tyres and other waste-streams into valuable products.

Further information on the Symphony Group can be found at [www.d2w.net](http://www.d2w.net).
