

For Immediate Release

26 November 2007

**SYMPHONY ENVIRONMENTAL TECHNOLOGIES PLC
('Symphony' or 'the Company')
TOTAL VOTING RIGHTS**

For the purpose of the Financial Services Authority's Disclosure and Transparency Rules, the total issued share capital in the Company at the date of this announcement consists of 85,484,547 ordinary shares of 0.1p each, each carrying the right to one vote.

The total number of voting rights in the Company is therefore 85,484,547.

The above figure may be used by shareholders as the denominator for the calculations by which they will determine if they are required to notify their interest in, or a change to their interest in, the share capital of the Company under the Disclosure and Transparency Rules.

Further information on the Symphony Environmental Technologies Group of companies:

SYMPHONY ENVIRONMENTAL TECHNOLOGIES PLC is a world leader in oxo-biodegradable plastic technology. The technology is recognised by the d₂w[®] droplet logo on thousands of tonnes of oxo-biodegradable plastic products. Symphony develops and supplies environmentally-responsible d₂w[®] pro-degradant additives as well as d₂w[®] oxo-biodegradable plastic film, and rigid packaging products.

Symphony has a diverse and growing customer base in the UK and has successfully established itself as an international business after signing distribution agreements for Argentina, Australia, Brazil, Canada & USA, the Caribbean, Chile, Colombia, France, India, Israel, Mexico, New Zealand, Peru, Portugal, South Africa, Saudi Arabia, Turkey, Uruguay, Qatar and other countries. Its d₂w[®] products can already be found in more than 50 countries.

Symphony is also developing innovative waste-to-energy technology and is exploring opportunities where there is a demand to convert plastics, tyres and other waste streams into valuable products by cost effective processes.

Further information on the Symphony Group can be found at www.symphonyplastics.com and www.degradable.net
