d₂p[®] Anti-insect Technology

 $\rm d_2p$ Al provides a safe and effective anti-insect solution supplied as a plastic additive masterbatch to protect thin-wall irrigation pipes against insect damage. Preventing damage to these pipes saves wastage of water as well as money spent on repairs and replacements. $\rm d_2p$ Al can be added to regular polymer during the manufacturing process with little or no change to processing conditions.

Proven efficacy

Field studies demonstrated that 8mm driptape treated with d_2p outperformed both standard 8mm and 10mm drip tape - with just 12 holes compared to 4,086 in the unprotected tape.

Applications

- Irrigation pipes
- · agricultural film / mulch film
- · mosquito nets LLIN
- plastic walls and ceilings
- plastic coated laminate floorings
- table-tops and work surfaces

Protection lasts for the lifetime of the product.

d₂p[®] Anti-insect Technology

d₂p Al masterbatch is also suitable for anti-mosquito netting.

TEST	Anti-mosquito	
TEST STANDARD	Cone Testing	
	Insect Used: Anopheles stephensi	
	Insects knocked down in 1 hour	Mortality after 24 hours
Insect Screen (Control)	O %	6%
Insect Screen with 2.2% d ₂ p	100%	86%

Approved in USA and EU Registered and approved in the EU BIOCIDAL REGULATION 528, in both PT-08 and PT-18

The d_2p screen immobilized 100% of mosquitoes and killed 86% in 24 hours, in tests with insect screens made with 2.2% d_2p masterbatch, compared to a control screen without d_2p .

Protection lasts for the lifetime of the product.
